FLOWERY REPORT ATTRACT MANY TO SOCIETY ISLAND

(By Associated Press.)
PAPEETE, Tahiti, April 27.—Many recent arrivals at the Tahiti and Marquesas Islands from other countries were attracted here by the numerous reports that have gone abroad that great tracts of rich coconut lands can be had at low prices and that only a small amount of capital and patience are necessary for one to come into possession of property that will pay good dividends for a lifetime.

Disappointments and hardships have been met by the newcomers. For there is no truth in the reports they received. In the first place, the lands here are not for sale, as the natives will sell everything else but their own lands. He considers himself a true owner of his acres, bound to pass the property on to his children. The lands here are not for sale, as the natives will sell everything else but their own lands. PRINCE HENRY DESTINED FOR A MILITARY LIFE

(By Associated Press.)
LONDON, April 28.—Prince Henry, the third son of the king and queen, who attained his majority on March 31, is destined for a military career. Although thrust somewhat in the background by his elder brothers, the prince of Wales and the duke of York, Prince Henry is immensely popular with the public.

In stature he excels his brothers and is fond of sports and outdoor life. In pursuance of his inclination to be a soldier, he went through the army class at Eton and afterward studied at Sandhurst, the English West Point.

"PLEASURE SEEKERS" AT THE BUTLER TODAY

When a woman is determined that the man she loves shall be good to her, she will do it. This is what happens in "Pleasure Seekers," in which beautiful Elaine Hammerstein is starred, and which will be the attraction at the Butler today. Miss Hammerstein takes the part of Mary Murdock who lives in the little town of South Paradise. Craig Winchell, millionaire, is dying through South Paradise, bound anywhere away from New York and temptation. That is, until he sees Mary. It makes him determined to marry, get a job with father and settle down. But he finds his son has been trapped and offers to buy off the "adventurers." The most interesting part of the story develops at this juncture. There is another woman and so forth, but the genius of the picture lies in the way the young wife handles a difficult situation.

Added to the feature will be the latest Pathé News.

Tomorrow, Max Allison, in "Estrangement," and a two-reel comedy, "Monday," the picture you have heard so much about, "Dinky," featuring Freddie Good, Wesley Barry.

ROADS ARE GOOD

The roads through Mono county are reported to be in excellent condition. The road from Mountain View, while that in Sweetwater is said to be fair.

House to Bridgeport is in good condition.

Even the Germans must admit the optimism of the French, who are still planning to collect the reparations.

AMERICAN ARMY OF OCCUPATION HARD AT WORK

(By Associated Press.)
COBLENZ, April 28.—If Americans at home imagine that the life of the soldiers composing the American army of occupation on the Rhine is one of idleness they will be a long way from the truth.

The little fighting force of 10,000 men has to be kept hard, trained and ready for quick action, and that means work—eight hours of it a day at drill, study, target practice or maneuvers, for it is the purpose of the general staff here to maintain a high state of readiness.

Most of the American doughboys' eight-hour day is spent in drill which occupies from three to five hours daily, varying according to circumstances and needs of the different units.

A visitor to this American community transplanted into the center of Europe would find the American boys just now preparing for a summer grind of war maneuvers, for the open training season has just commenced and will continue until October 31.

During the past winter months special courses in educational and vocational training were taken by soldiers. They included commercial training, shorthand, typewriting and accounting; mechanical training, including automobile driving, pipe fitting, plumbing; also a cooks' and bakers' school which had a large attendance in an effort to live down Marshal Foyolle's famous criticism of the American army; that they could not cook. An engineers' school and a horseshoers' school were also filled to capacity.

On what do the reformers who admit that they never go to motion picture shows base their criticism?

GIVES PROPERTY TO GOVERNMENT; LIVES IN A BARN

(By Associated Press.)
HYDE, England, April 28.—Austin Hopkinson, a member of the house of commons, has just given to the local governing council of Hyde his mansion, valued at \$150,000, and 29 other houses, and he has gone to live in an old barn on what was once a part of his estate. He has taken this action because he believes that a manifestation of the spirit of self-sacrifice on the part of public servants would avert any danger of a revolution in England.

Mr. Hopkinson's other deeds of generosity include the disposal of his furniture to friends and the needy partly by sale at bargain prices and partly by free gift. He gave his handsome automobile to his chauffeur. The latter has now started in business with it. His former employer, the donor of the machine, is one of his best customers.

To questioners, Mr. Hopkinson has said his intention was to live the life of a simple workingman and to help others as much as possible. In his own workshops he has introduced a profit-sharing system that is without precedent inasmuch as the higher the yield, the less he receives and after a certain sum is reached, he is to receive nothing at all.

MEXICANS HOLD UP OIL CO. OFFICIALS

(By Associated Press.)
HOUSTON, Texas, April 28.—A band of 15 Mexicans held up officials of the Atlantic Gulf & West Indies Oil company near Tampico on April 21 and took 135,000 pesos Mexican gold. Ten persons were killed in the battle.

It is always convincing proof that a man is all wrong when he does not agree with our opinions.
